

# Bylaws — Proposed Amendments

A long-standing mechanism for our communication with the Office of the President has been biannual reports from our Joint Benefits Committee (a joint committee of retirees and emeriti). A draft amendment to our bylaws which addresses the administration of the JBC is to be considered at our Fall 2024 meeting. The intent of these changes is to increase the influence of this committee and ensure it is in sync with the activities of the UC Emeriti-Retirees Advisory Committee and that the JBC's membership terms are clear.

Also proposed within this amendment is an additional officer position: Webmaster. Our longtime master of all things web related, Bob Daly, will be stepping way from these duties - we greatly appreciate all his efforts. Given the essential role web communications plays in our outreach efforts, we have specified a formal role on the board.

Since we're embarking on this formal amendment process, we are proposing other administrative and cleanup efforts which are highlighted within the document.
